Noha Lea Halim

PhD candidate and Research Assistant
Professorship of Governance, Public Policy & Innovative Technologies at the Technical University Munich/ School of Governance

Noha Lea Halim is a PhD candidate and research assistant at the Professorship of Governance, Public Policy & Innovative Technologies at the Technical University Munich/ School of Governance since July 2022. She holds an M.A. in International Studies from Aarhus University and a B.A. majoring in European Union Law from the University of Amsterdam. Noha previously conducted the Schuman Traineeship at the European Parliament and worked in Public Policy, Law & Governmental Affairs in Brussels and Switzerland in the area of platform regulation and competition law. Her research focuses on the governance of Generative AI. In her PhD she looks at the question of not only how to govern AI but whether the interactive techno-social relationship between innovation in technology vis-a-vis governance also generates innovation in governance itself.

And should you want to add more: At the Professorship she is involved in research projects on Digital Self Determination, AI Governance, AI & Educational Technologies, the Metaverse and Data Fiduciaries. She teaches on topics of the platform regulation and interest representation in the European Union, AI in theory and practice and the interoperability of AI and Quantum technologies.
